

This is in response to your plan for new broadcast service LPFM. I understand some stations may be lost if this service is expanded.

I am a listener of K-Love Christian Radio and am concerned about what changes may take place and the possible loss of K-love in this area. K-Love serves to offer family oriented Christian music. It would be a great loss to my community if K-love were not available. Lately the FCC has been imposing fines on broadcasts that are deemed "inappropriate" for families. Please do not cause the loss of a Christian, family oriented radio station which offers a positive alternative to many other programs offered on radio. K-love is also an entirely listener supported station, and their support could be lost if it is available to fewer listeners.

Thank you for your consideration.
